EMPLOYER FEEDBACK REPORT (2021-22)

INTERNAL QUALITY ASSURANCE CELL

INTRODUCTION: The Internal Quality Assurance Cell (IQAC) is a vital part of the institution's quality assurance system and has continuously been working towards ensuring quality enhancement and sustenance. Collection and analysis of feedback from all the employers on quality-related institutional processes helps to ensure the creation and enhancement of quality culture. It also provides valuable insights and guides us to improve the experience for our current and future employers. This report focuses on the analysis of the feedback of employers of the institution.

DATA COLLECTION AND ANALYSIS: An effort was made to receive feedback from all the employers of the college. For this purpose, a feedback form was created and shared with them through Performance Insight-360 (PI-360), Quality Analytics Framework. A total of 29 responses on institution were received from the employers. In order to arrive at comprehensive results, useful statistical tool like percentage has been used. For the effective presentation of the data tables and graphs have been used.
