STUDENT FEEDBACK ANALYSIS & ACTION TAKEN REPORT (2021-22)

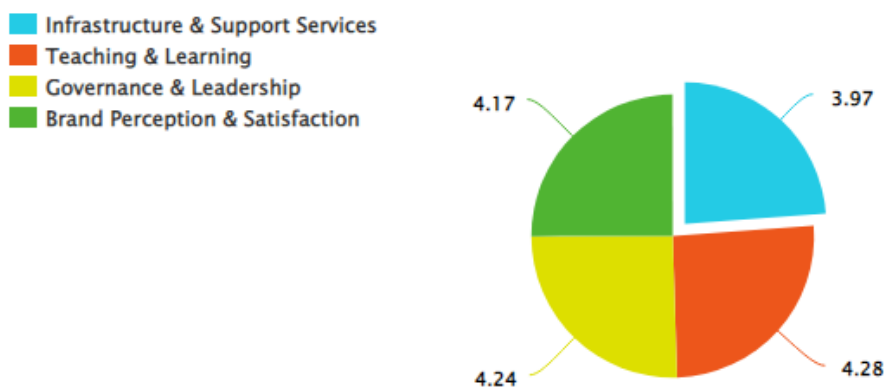

INTERNAL QUALITY ASSURANCE CELL

INTRODUCTION: The Internal Quality Assurance Cell (IQAC) is a vital part of the institution’s quality assurance system and has continuously been working towards ensuring quality enhancement and sustenance. Collection and analysis of feedback from all the faculty on quality-related institutional processes helps to ensure the creation and enhancement of quality culture. It also provides valuable insights and guides us to serve our faculty and to improve the educational experience for our current and future faculty. This report focuses on the analysis of the feedback of faculty on institution.

DATA COLLECTION AND ANALYSIS: An effort was made to receive feedback from all the students of the college. For this purpose, a feedback form was created and shared with them through Performance Insight-360 (PI-360), Quality Analytics Framework. As many 521/1574 responses on institution were received from the faculty members. In order to arrive at comprehensive results, useful statistical tool like percentage has been used. For the effective presentation of the data tables and graphs have been used.
